## Company Background & Footprint

Siyabha Projects and Services (Pty) Ltd is a black empowerment company founded in 2020, specialising in supply and delivery, auto and repair services. A strong emphasis is placed on our customers' needs and the wide variety of services offered to our clients.

We are mainly based in Sandton, with a strong footprint in areas such as Randburg, and we take pride in delivering high-quality, specialised auto and repair, marketing, supply and delivery solutions.

In addition, Siyabha Projects is a South African service provider offering cleaning, horticulture, and grounds maintenance services to government departments, public entities, municipalities, and private sector clients.

The company is committed to delivering professional, reliable, compliant, and cost-effective services, with a strong focus on long-term client partnerships and consistent service excellence.

## Approach & Capability

Siyabha Projects operates through:

- Trained and supervised service teams
- Clear service schedules and reporting structures
- Compliance with health, safety, and labour regulations
- Equipment and materials appropriate to each service environment

Our approach ensures consistency, accountability, and measurable service delivery across all contracts.

## Vision & Mission Statement

To deliver quality and value in all the sectors we are involved in through integrated solutions, high quality products and services.

To use sustainable systems and practices while implementing new and better approaches to deliver client projects.

To add value to our clients by providing value for money in all our services and products.

## Target Market

Siyabha Projects primarily serves national and provincial government departments, municipalities, and public entities across South Africa. The company also supports housing developments and public facilities, operating effectively within tender-based service environments. Our experience in regulated procurement processes enables us to deliver compliant, reliable, and scalable services aligned with public-sector requirements..

## Our Projects

Here in below are our major recent projects where we have rendered some of the services mentioned above.

- Naru Group (project – supply and delivery of animal feeds 2021/06/03 – 2022/03/30 worth R 475 000, 00).
